Getting the job done

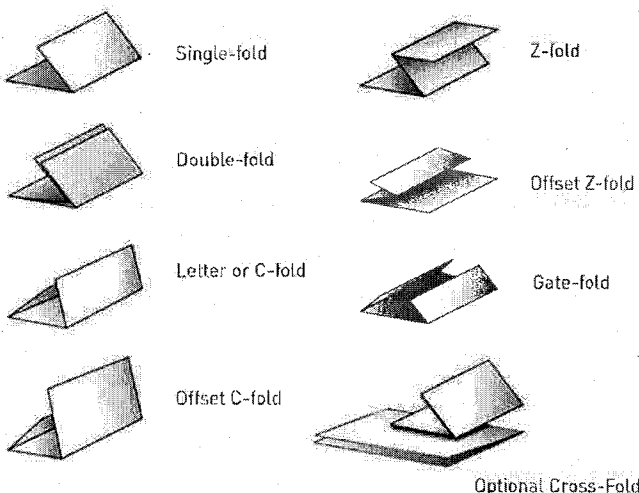

The DF900 folder is a heavy-duty, high performance folder that you can count on to get the job done. It's fast – folding up to 20,000 pieces per hour! It holds 500 sheets so you won't be constantly refilling, and when you need to refill, you can do so on-the-fly keeping productivity to a maximum. It automatically feeds, folds and collects your documents in the stacker, making them envelope ready. The DF900 folder offers an optional cross-folding capability which allows you to create a second fold perpendicular to the first. This innovative application is perfect for newsletters and can save you time and money.

This folder is ideal for businesses, churches, schools and even small printers. Some of the DF900 folder's attractive characteristics:

- Friendly, modern, and easy to operate user interface with backlit LCD display
- Stores 20 jobs with minimal user adjustments
- Built-in Wizard for configuring and saving jobs
- Productivity is dramatically enhanced with on-the-fly loading
- Flexibility and higher output by automatically adjusting speed any time
- Has the capability to interface to a dual tabber system for even greater productivity
- Manual feed function allows up to 5 sheets, stapled or unstapled

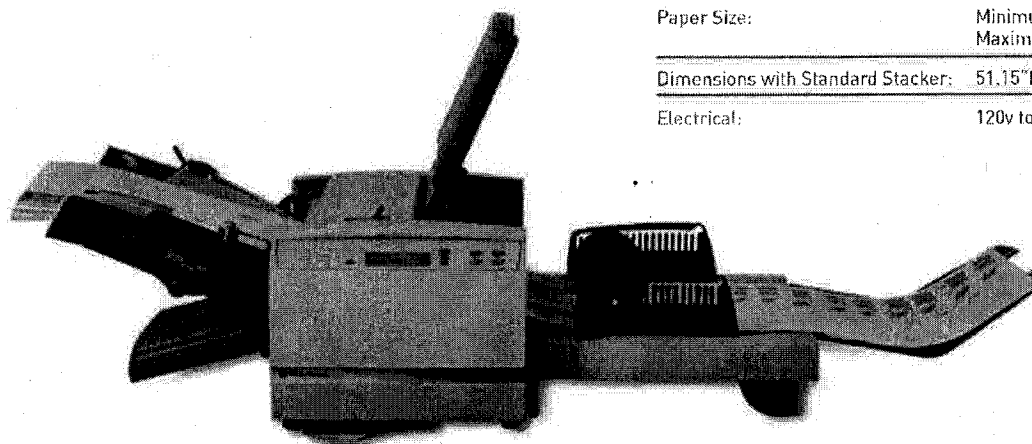

Folding versatility

The DF900 folder offers 7 different types of folds to fit your applications!

Specifications

Folding Speed:	20,000 pieces per hour
Speed Settings:	7 [adjustable while running]

B12 Series/AutoBaum Folders

Ease of operation in an affordable, compact desktop folder

The B12 series of AutoBaum [automated] and B12 manual-setup folder models combine proven folding technology with the latest automation design features for high-productivity, high-quality folding solutions for all needs and budgets.

The new line of B12 series desktop folders includes three compact and affordable models that provide a choice of full automation, limited automation with manual features and a third model that has only manual setup features. The automated versions are also named as AutoBaum models.

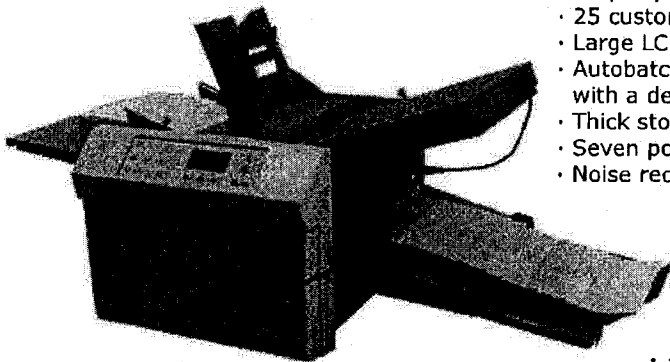

Baum B12X

AutoBaum B12X (Fully Automated Setup)

- Fully Automated setup of fold plates and delivery stacker wheels
- Multiple set feeder standard
- 21,500 folds per hour letter fold A4 or 11" long paper
- 18 pre-programmed fold settings
- 35 custom fold memory
- Large LCD Interface
- Autobatch programmable batching to a pre-numbered count of sheets with a delay
- Adjustable feed table pressure for better feed light to heavy stocks
- Thick stock mode to temporarily increase speed for thicker stocks
- Seven point fold stops for crisp, accurate folds of larger paper
- Noise reduction with enclosed and insulated fold plates

Baum B12A

AutoBaum B12A (Limited Automated Setup)

- Automated setup of fold plates, manual setup of delivery wheels
- Multiple set feeder optional
- 20,100 folds per hour letter fold A4 or 11" long paper
- 18 pre-programmed fold settings
- 25 custom fold memory
- Large LCD Interface
- Autobatch programmable batching to a pre-numbered of sheets with a delay
- Thick stock mode to temporarily increase speed for thicker stocks
- Seven point fold stops for crisp, accurate folds of larger paper
- Noise reduction with enclosed and insulated fold plates

Maximum speed is based on thick stock mode for AutoBaum B12X and B12A.
Specifications subject to change without notice.

Other Features Found On All Three B12 Models:

- Telescoping delivery conveyor can be set between 14" (356mm) and 36" (915mm) in length and holds up to 500 folded pieces.
- Six-digit resettable and eight-digit life counters providing maximum audit control.
- Cross-folding guide for second pass folding.
- Removable roller cover for easy access to fold rollers and exit area.
- Easy-off feed wheel shaft provides easy changing of feed wheels without removing side covers.
- Self-centering side guides move in and out together to help ensure documents are fed squarely.
- Paper-out and cover-open sensors that detect when paper is out or if a cover is open; the folder will not run.
- Fault detection that automatically stops the folder when a fault is detected. An LED light or indicator on the control panel notifies the operator of the fault.

Optional Accessories

- Mobile cart
- Dust cover

DF-920

Fully Automatic Tabletop Folder

Let Duplo's DF-920 fully automatic tabletop folder take care of all your folding needs. High-speed folding up to 280 sheets per minute has never been easier! With six popular pre-programmed folds and a multitude of custom folds, crisp and accurate folding for a variety of applications is accessed at the touch of a button.

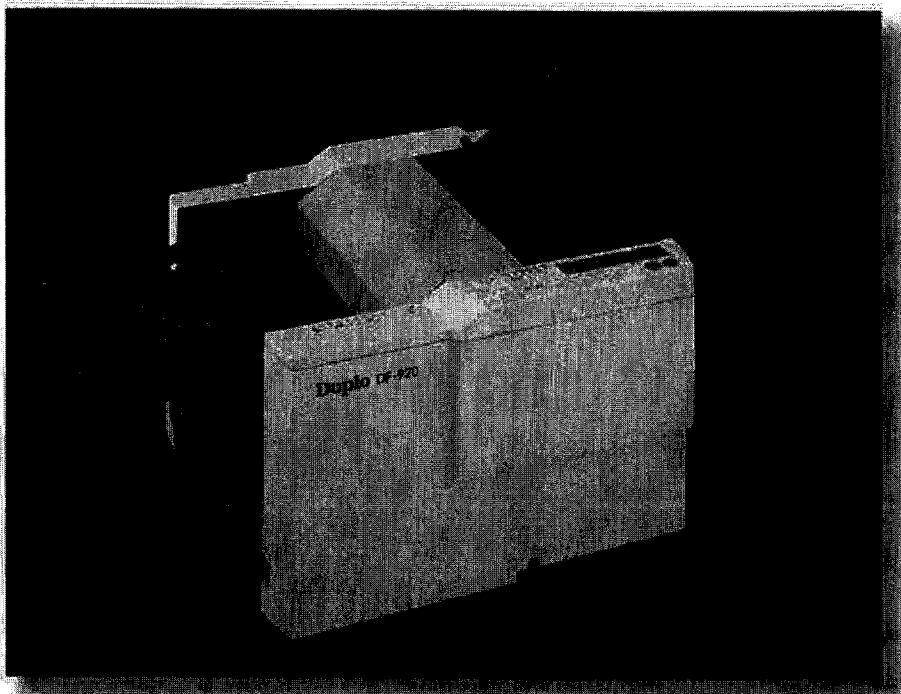

Unique sound absorbers inside the machine dramatically reduce the amount of sound not only when folding but also when fold stoppers are moving. This makes the high-speed DF-920 ideal for all businesses and organizations.

The patented feed system ensures reliable feeding and accurate folds for a wide range of paper sizes, weights,

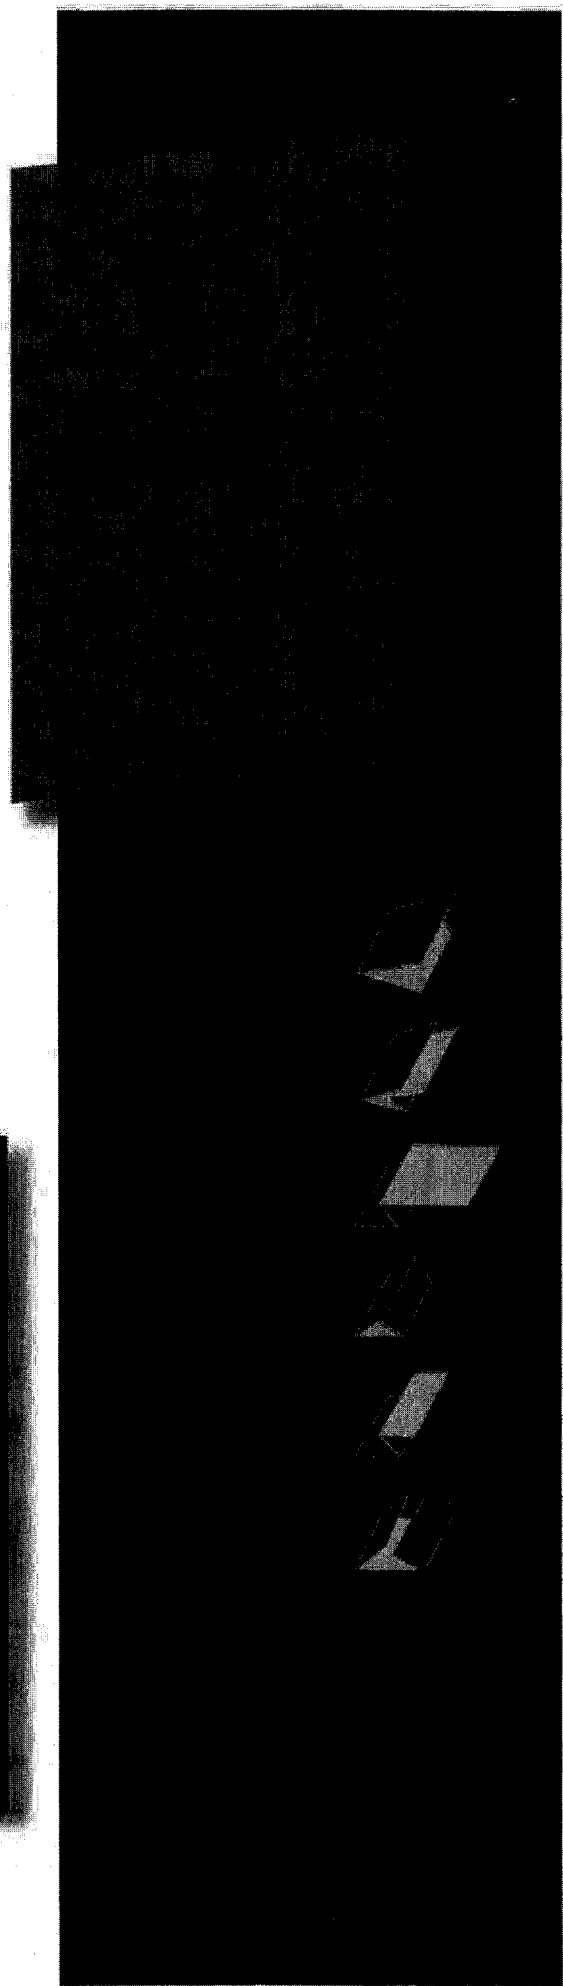

and stocks. No manual adjustments are needed, as the DF-920 automatically recognizes five popular paper sizes — letter, legal, ledger, 1/2-letter, and 1/2-legal. When powering back on, the fast set-up mode allows the DF-920 to automatically recall the last job.

Simply load the automatic elevating feed tray with up to 500 sheets, select the fold type, and hit start. A four-digit counter may be set to ascend or descend. Additionally, the batch mode allows the operator to input the exact number of sheets to be folded in each batch.

The Duplo DF-920 is the fastest, most easy to use tabletop folder for all applications demanding speed and precision folding.
